44 bulls, 56 females and 35, 1973 heifers and steers

A Banquet will be held at the Royal Inn Motel, 15 W. 4th St. at 7:00 p.m. the evening of Thursday, October 31st. Reservations for the Banquet should be sent to Bill Scott, Ransom, Kansas. The Royal Inn phone number is 316-663-1211.

MANAGERS MESSAGE

The Shorthorn and Polled Shorthorn breeders of Kansas are putting together the largest state sale ever. We have 130 head consigned. There will be 44 big strong bulls, 60 females, including 40 cows. We also have 20 heifer calves and 15 or more steer calves.

There are a lot of very good bulls in the sale, both horned and polled. The female offering will be the best anywhere in the country this year. Breeders have selected females right off the top of their herds, trying to make top females available to you. Dr. Paul Loyd is selling 30 of his very best, because he is losing some grass land.

Nearly all females are young with their best years ahead of them. With the cost of feeds, the demand for the Shorthorn will be even greater. We know that the Shorthorn will put on more beef on less feed than any other breed. Select the cattle in this sale that will work improvement in your herd.

The annual meeting and banquet will be in the Royal Inn in Hutchinson at 7 p.m., Oct 31. It is informal and we encourage everyone to attend.

The Lassies will hold their business meeting following the dinner.

Bill Scott
Sale Manager

STANDARD GUARANTEE

(Recommended by American Shorthorn Association)

- A. Proper care must be given to purchaser to protect breeding qualities and health of guaranteed animals.
- B. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
- C. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf, must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.

- D. When an animal fails to comply with the above guarantee, the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of a freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt, it shall be returned to the purchaser at his expense. In case of dispute, the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
- E. In the event an animal is returned by the buyer to the seller as a non-breeder, the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy, if such a certificate is required by the seller.
- F. All animals catalogued have been tested for T.B. and are clean, and have also passed a test for Brucellosis thirty days prior to the sale, or are accompanied by a Bangs vaccination Certificate. Announcements will be made covering animals not clear from vaccination.
- G. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females showing names and record numbers of sire and dam, as well as service date.
- H. All prospective buyers should check health requirements of their states. Health certificates will be provided with each lot sold.

WHY BUY SHORTHORNS?

- ★ Shorthorn bulls are active, sure breeders.
- ★ They put more growth into their calf crops.
- ★ Shorthorns are historically known for their faster gaining and finishing ability. The demand for Shorthorn and Shorthorn crossbred feeders far exceeds existing supplies. Consequently, they sell for a premium.
- ★ Shorthorn bulls put more milking ability into their daughters.... this means heavier weaning weights.
- ★ Shorthorn docility is world famous, making them ideal projects for youngsters.
- ★ Shorthorns eliminate the cancer eye, sunburned and snowburned udder problems.
- ★ Shorthorns are known as "THE GREAT IMPROVERS." Shorthorn crosses have been proven in test after test to be superior to other crossbreds in milking ability, rate of gain and feed efficiency.
- ★ Ask yourself why so many commercial herds are now crossbreeding with Shorthorns? IT'S BECAUSE THEY ARE BEST IN EVERY WEIGH.

Female lots 60-100 will be the unaltered females. These are mostly cows. Notice the footnotes. Some have calves or are near calving thereare a few young heifers in this group also. I'm confident you will be more than pleased with the offering of these females. I have seen part of these females, and we persuaded the breeders to put some of their best into the sale.

American Shorthorn Association

E S F Countess Dee—Has a May 17 Polled heifer calf at foot, sired by . . . sired
Wakanian Stonehinge x and pasture mated again to same bull.

THE SUPER EXOTIC!

One of Europe's best!

Originating in Northern England, the breed is unbeatable from a combined BEEF-MILK standpoint. It is enjoying great success in North America, Africa, Australia, South America . . . WHEREVER CATTLE HAVE TO MAKE IT ON THEIR OWN.

The breed combines SIZE and RAPID GAINING ability with HIGH FERTILITY, TOP CALVING PERCENTAGES, LOW MAINTENANCE COSTS, and UNSURPASSED CARCASS GRADE at popular packer weights.

Their DOCILE TEMPERAMENT makes them ideal to handle on either farm or ranch. You won't have to buy extra barb wire to keep the buggers in.

And MORE IMPORTANT . . . they have been PROFIT-PROVEN in the United States for nearly 200 years. Why speculate? Go the Shorthorn-Polled Shorthorn route!

It is with great reluctance that we must curtail much of our registered cow herd. This is due to the lack of labor and the loss of much of our pasture land.

Our cow herd has been closely culled for many years and we are retaining the Spring 1974 calves and a few cow. The cows represent each cow family in our herd.

All cows that had Spring calves are bred to Wston Leader 15th. He is from the Martin Nold herd and one of the top gaining bulls in the lows Bull Test Station. He is by TPS. Coronet Leader 21st. He is a bull with great length, good legs, good disposition, and is a 100% dehorner.

The young heifers are bred to Cherry Plus 93, a young 1973 Haumont bull. I picked this bull for his good deep quarter and straight legs.

We have never had the time to show our cattle except in the state sales and Polled Congress when held in Kansas, however, we have always stood well in this competition. We have had the Grand Champion bull at the Mid-Kansas Salina show and sale in two of the last three sales.

The cattle have been good to us and I am sure they will be for the buyers. The herd has had the best attention I could give and even the cows with age should produce several more calves.

All females have been Officially Calfhood vaccinated. The herd is TB accredited and Brucella Abortus certified.
